The legacy of Andalucía

The Berber Peoples went through one of the most intense phases of contact with the Eurasian areas, which resulted in a hybrid civilization. During this time, Andalucía became the cultural center of Europe and the link between East and West.

The Reign of El Idris I led to a period of prosperity that lasted until the fall of the Caliphate, in the 13th century, which resulted in a hybrid civilization. During this time, Andalucía became the cultural center of Europe and the link between East and West.

The road travels along gently rolling plateaus of the province of Seville and Andalusia, and it is made for rough surfaces. On the way, we can see many ancient structures, and those that are left are particularly interesting. Among these structures, there are many ancient tombs, such as the one at the Mora del Río. The route starts with a view of the road leading to the city, providing a glimpse of the surrounding landscape.
